Complaint: September 14, 2020 Hearing

Dana K Richards
Porcupine, South Dakota

Council Members of the Oglala Sioux Tribe,

The council meeting on Julian Bear Runner's impeachment hearing via zoom is disturbing.

Mr. Good Crow did fade in and out of the zoom meeting. Mr. Two Lance attempted to vote however background noise interference over rode the vote. It is deeply concerning that using zoom, how many council may have faded in and out of reception during testimony and voting.

The attorney's for the tribal government failed to mention that Robert's Rule of Order governs the conduct and operation of a council meeting. That according to Robert's Rules of Order silence means consent. That the silence of council representatives James Cross, Vincent Two Lance, Valerie Janis, during voting is considered a consent to the the motion of Council Representative to remove Julian R. Bear Runner from the President of the Oglala Sioux Tribe based on maleficence and gross negligence. A council person silence in voting maybe objected in which then the silence must cast a yes or no vote. Since their was no objection to the silence vote it must be view as consent to the motion.

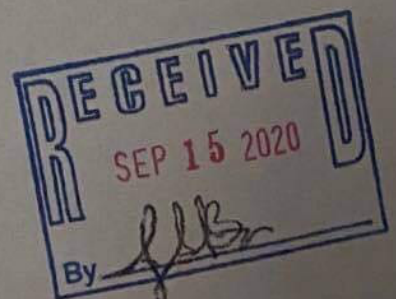

That the Secretary adjustment to voting is 15 yes and 5 no. That I am requesting the Oglala Sioux Tribal Council convene to accept the vote of 15 yes and 5 no and motion is accepted to remove Julian R. Bear Runner from the President of the Oglala Sioux Tribe based on maleficence and gross negligence.

Sincerely, Dana K. Richards
