

Lionel Haskie, a member of the Navajo Nation, received a Master of Business Administration from Strayer University. He is a professional licensed Civil engineer and attended the University of Southern California, Los Angeles, where he received a Bachelor of Science in Civil Engineering.

Mr. Haskie has worked in the Water Resources and Land Development Industry for 25 years. He has been with the Navajo Agricultural Products Industry for 14 years and currently serves as the Director of Operations, 638 Programs and Government Relations. Mr. Haskie's responsibilities at NAPI include developing, operating, and maintaining lands and infrastructure within the Navajo Indian Irrigation Project that services 72,000 acres of commercial farming. Mr. Haskie leads multiple teams tasked with completing capital projects, so water delivery service is uninterrupted for crop production. Mr. Haskie also manages land development planning, surveying, mapping and farmland planning support services for NAPI.

Prior experience included interning for the Metropolitan Water District. Working as a construction engineer for Kiewit Corporation on the River Mountains Water Treatment Plant, Las Vegas Nevada. And as a professional design consultant in Los Angeles designing & building residential and commercial communities in Southern California.

Mr. Haskie and his wife have three daughters, two have graduated with bachelor's degrees. His youngest daughter is in middle-school and plays softball, basketball, and Fortnite. His hobbies include snowboarding and biking in the mountains of Southern Colorado. He also enjoys fishing, hiking, and rafting. During the springtime, he assists his mother with shearing sheep and rearing lambs.
