SUMMARY

I have a continuous record of accomplishment as a research and policy professional, specializing in tribal government and urban Indian relations.

I sit on multiple boards and advisory committees as the cultural and tribal government expert and outreach specialist. I have also successfully led teams of Native and non-Native public health professionals to develop health and policy interventions with tribal communities across the United States.

I have provided cultural expertise on working with rural and urban Native American communities for many agencies. These services include: facilitating focus groups and community meetings to gather input and disseminate information, providing training for those new to working in tribal communities and tribal government relations, and advising on the implementation of \$450 million in grant and public levy funds.

Additionally, I am an experienced print and television media spokesperson with national credits including NPR and Associated Press.
