

Federal Indian Boarding Schools (FIBS) Capacity, Enrollment, and Attendance

Data was collected for each FIBS site when available. Many schools had various metrics including daily, quarterly, and semiannual numbers for boarding school students, as well as, day school students. If a site had more than one value documented in a year, the average of those values was used. The information displayed in the tables and graph only represent annual, boarding school data. Minimal research documents were available for 1910 and after 1930, therefore, those years are excluded. Data is as of January 1, 2024.
